

# QUANTUM RESISTANT MESSAGING

Future-proof your  
communications with

# Wisper

The state-of-the-art messaging app  
secured with quantum keys.

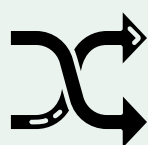

Verified by  
**hackerone**

Powered by quantum-resistant cryptography  
schemas and true entropy

**Quantum-resistant cryptographic  
algorithms**

**Single-photon QRNG**

Designed and implemented according to the latest NIST  
standard (SP 800-90B) and certified by METAS.

Your gateway  
into the  
quantum-resistant  
era.

The next revolution in communication is here.

Which route will you take?

THE STORE NOW - DECRYPT LATER THREAT IS REAL

Protect your information with quantum keys.

Wisper's security is backed by quantum keys generated via a single-photon QRNG, designed and implemented according to the latest NIST standard (SP 800-90B) and certified by METAS.

# APP FEATURES

Biometric authentication

1:1 text chats and voice calls

1:1 video calls

Group text chats

Secure file sharing

Android & iOS native

COMING SOON

Group video calls  
...and much more!
